

This hunt report came in from my good friend **Ed Yates (PA)**:

SPECIES: *Koryak snow sheep*

DATE TAKEN: August 4, 2006

LOCATION: *Anych-Vayam, Koryak Mts, Northern Kamchatka, Russia*

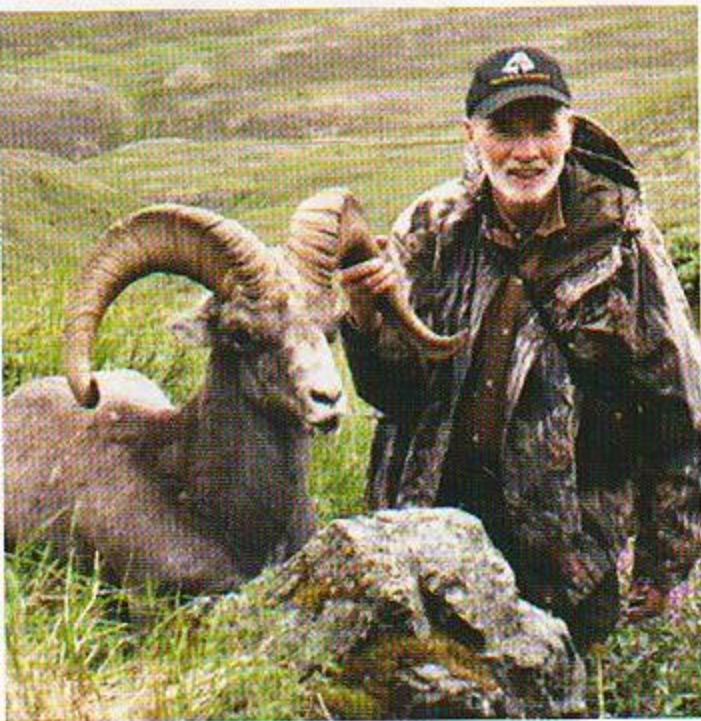

OUTFITTER: *Profi-Hunt*

GUIDES: *Alexander Borodulin & Vladimir Koshcheev*

HIGHLIGHTS: *I was able to take a very nice 11-year-old ram and hunted with a great group of experienced*

mountain hunters: Chris Jackson (MO), Joe Crawley (MO), Jim Dovenberg (OR), Tom Lavelle (ND), and Dennis Campbell (AL). We had six hunters and got seven sheep. I was also able to watch a very experienced Russian outdoor photographer, Sergey Ivanov, take excellent digital photos. This ram makes #24 on the Ovis list for me.

SUGGESTIONS: *Wait until flights from Anchorage to Kamchatka are resumed. Flying from the USA east coast through Moscow means going through 17 time zones!*

Ed Yates (PA) got this Koryak snow sheep in August 2006. Ed was hunting with Profi-Hunt.
