

Larry Higgins (MI) took this hard-won Mid-Caucasian tur in Kabardino-Balkariya, Russia during August 2007. Larry was hunting with Profi-Hunt.

My good friend, **Larry Higgins** (MI) has reached the lofty milestone of the Capra *Super 20*. Larry got to #19 after taking a Mid-Caucasian tur in August 2007 and then hunted in Spain in September 2007 and reached the *Super 20* when he took a Cantabrian chamois. Here are Larry's two reports:

Species: Mid-Caucasian tur

Date taken: August 11, 2007

Location: 60 miles west of Nal'chik in Kabardino-Balkariya / Kamenskoye Game Mgmt Unit

Outfitter: Profi-Hunt

Guide: Omar

Highlights: This is a grueling hunt and fortunately I got my trophy on my third climb. Base camp was very nice and the spike camp was good.

Length of horns: 30 6/8 x 31 3/8. **Bases:** 12 2/8 x 12 2/8. The ram was 11 years old. Total score: 141 2/8 SCI.

Species: Cantabrian chamois

Date taken: September 25, 2007

Location: Riano in the Picos de Europa Reserve, Spain

This Cantabrian chamois from Spain got Larry Higgins (MI) to the Capra World Slam Super 20, September 2007. Larry was hunting with Fernando Saiz.

Outfitter: Fernando Saiz

Guide: Nacho

Highlights: A mature 8-year-old ram with horn lengths of 7 2/8 x 7 1/8 and bases of 2 7/8 x 2 7/8. In two days we did a lot of climbing, some of which was quite steep. We battled the fog and a rain shower. We found our chamois on the last afternoon late in the day as we were beginning to head back up the mountain to work our way back to the vehicle.
