

Sergey Lyapunov (Russia) took this fantastic Altay argali from Mongolia in September 2010. Sergey's ram has an official score of 226 7/8 SCI.

Back in our Winter 2014 issue, we had a Milestone Feature announcing that **Sergey Lyapunov** (Russia) had reached the Ovis World Slam Super 20 with some very impressive trophies. We have now selected some more photos from his archive to publish in *SLAM QUEST*. It appears that Sergey took three separate trips to Mongolia during 2009-2010 and was able to take three separate argali rams – the Altay, Hangay and Gobi. We do not have any official reports for these three rams, but we do have some great photos to share.
