

**Zeev Nederman** (TX) recently documented his Capra World Slam after he took a trip to Spain in April 2010 and got a Pyrenean chamois and a Beceite ibex. Zeev started his Capra hunting way back in 1977 when he took a Nubian ibex. Zeev actually has taken 13 different Capra species, with a total of 17 animals. An Ovis World Slam also looks to be in Zeev's near future, because he has already taken 10 different species of sheep. We'll use some of Zeev's goats for this Milestone Feature and save the others for future issues of *OVIS*.

This Dagestan (Eastern) tur was taken in Azerbaijan by Zeev Nederman (TX) in June 2007. Zeev was hunting with ProfiHunt and Vladimir Koscheev.
